

RAFIQ AL HAFIZH ADHA

WEB DEVELOPER • SEO SPECIALIST

rafiqalhafizh12@gmail.com | Medan, Indonesia | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Web Developer and SEO Specialist with 6+ years of experience building responsive, search-optimized websites for agencies, government institutions, and startups. Combines hands-on front-end and back-end development (PHP, Laravel, React, Next.js, WordPress) with technical and on-page SEO to ship fast, well-structured sites that rank and convert. Track record across 20+ client websites, from landing pages to full CMS-driven platforms.

SKILLS

Web & Cloud Development: PHP, Laravel, React, Next.js, WordPress, Elementor, Bricks, Breakdance, Framer, HTML/CSS, AWS, Google Cloud Platform

SEO: Technical SEO, On-Page & Off-Page SEO, Site Architecture, Metadata Optimization, Internal Linking, Core Web Vitals / Page-Speed Optimization, Keyword Research

Design & Prototyping: Figma, Balsamiq, Miro, Affinity

Ways of Working: Agile, Cross-functional Collaboration, Clear Communication

PROFESSIONAL EXPERIENCE

Asia Safety Protection

Jan 2026 – Present

SEO Specialist & Web Developer — Remote, Freelance

- Lead end-to-end SEO covering technical foundations, on-page, and off-page optimization to grow organic search visibility.
- Restructured site architecture and internal linking to improve crawlability and keyword targeting.
- Optimized page-speed performance and on-page metadata to strengthen rankings and user experience.

PraktiQu

Apr 2025 – Present

Front-End Developer — Remote, Contract

- Build clean, responsive landing pages and interfaces, turning design concepts into functional front-end experiences.
- Refine layout and component structure to improve usability, visual consistency, and conversion.

Al Khair Tour & Travel

Aug 2025 – Mar 2026

Web Developer — Onsite, Contract

- Owned the full website lifecycle — content structure, wireframing, UI design, development, and launch — for a religious and leisure travel brand.
- Built a responsive front-end and back-end with a CMS for travel packages (Umrah, Ziyarat, Asia/Europe tours), including trip catalogs, registration forms, and a travel blog.
- Implemented on-page SEO (URL structure, headings, meta tags, loading speed) to increase online visibility.
- Documented the system and trained the internal team to manage content, testimonials, and blog updates independently.

PT Socta Creatives Indonesia

Nov 2024 – Oct 2025

Web Developer — Remote, Apprenticeship

- Improved site loading speed by 40% through cache optimization and image compression.
- Developed and maintained client websites on WordPress and Framer with a focus on responsive, user-friendly design.

PT Duta Agensi Mail

Jan 2024 – Nov 2024

Web Developer (Performance) — Remote, Contract

- Led a website performance overhaul for duniafintech.com (WordPress), improving load speed and user experience.
- Streamlined plugins and widgets, compressed images, enabled caching, cleaned the database, and refactored code to cut load times.

PT Ouzen Anugerah Indonesia

Jun 2019 – Feb 2023

Web Designer & Team Lead — Onsite, Full-time

- Led a small team producing up to 20 product sales landing pages per month using HTML and WordPress.
- Researched and tailored each landing page to its product and audience, then validated designs through user-experience testing.
- Built reusable design frameworks and mockups to standardize the team's UI workflow.

PT Halo Karya Bersama

Nov 2023 – Mar 2024

Product Designer — Remote, Internship

- Redesigned and rebranded the "Halo Siswa" platform into "HaloExpert" over a 3-month engagement, designing UI components and prototypes in close collaboration with developers.

PT Kereta Api Indonesia (KAI Divre I North Sumatra)

Dec 2017 – Mar 2018

Web Designer — Onsite, Internship

- Redesigned and rebuilt a subsidiary company-profile website using native PHP, and supported rollout of KAI's internal E-Office application.
